PROFILE

A+ student, Bachelor of Engineering (Automation and Robotics Engineering) (Co-op) program. 10+ years experience in software development and AI. Seeking robotics internship, summer 2027.

PROGRAM-RELATED SKILLS

- Mechanical design and prototyping: SolidWorks, 3D printing
- Embedded and IoT: C/C++, Arduino, Raspberry Pi, sensors
- Software and Cloud: Python, Node.js, GitHub, Docker, AWS, IBM Cloud

Technical team projects and presentations

- Autonomous car course project bit.ly/mouse-trap-car
- Robotic arm course project bit.ly/robot-arm-design
- Natural language interfaces powered by large language models | bit.ly/NL-interfaces
- Automating online whiteboard tasks with NLP | bit.ly/MURAL-automation
- Visual recognition scavenger hunt app | bit.ly/vis-scamenger
- Game-playing chatbots | bit.ly/game-playing-bots

EDUCATION

Bachelor of Engineering (Automation and Robotics Engineering) (Co-op) – April 2029

Algonquin College, Ottawa, Ontario, GPA: 3.95/4.0

Bachelor of Science, Computing Science

Queen's University, Kingston, Ontario

WORK EXPERIENCE

Intern

May, 2026 –

J-Squared, Ottawa, Ontario

- Led conception, planning, design, roll-out of self-hosted large language model platform to support company-wide generative AI use. Inferencing with self-hosted models on the company network reduced costs and ensured privacy and security of intellectual property.
- Performed end-to-end testing of conveyor belt monitoring solution. Identified multiple power-source problems that would have burned out electronics and caused a fire.

Software Developer

– 2025

IBM, Toronto, Ontario

- Led design, development, and deployment of IBM's first customer-facing retrieval-augmented generation (RAG) feature. This feature won an industry award. ([Paper](#))
- Led design, development, and deployment of an industry-leading video search and enhanced user experience feature. This feature won an industry award. ([Paper](#))
- Created the AI ContentOps Squad to help teammates grow their AI skills and career.
- As an Agile coach and course facilitator, assisted small and large teams to balance competing priorities and deliver client satisfaction within tight deadlines.
